- ▶ **Usage of Tools and Techniques:** Our expertise helps us incorporate best-of-the-breed tools and techniques in the IT consulting services.
- ▶ **State-of-the-Art facilities:** Our state-of-the-art development facilities, and high-speed data links allow us better connectivity and communication.
- ▶ **Fixed cost approach:** We believe in fixed pricing, with no surprises or complications.
- ▶ **Business Value:** Our mission is to deliver tangible business value to our customers, and we strive to understand your key business objectives as well as your functional requirements.
- ▶ **Collaborative tracking and communication:** To ensure a well-defined consulting process, we leverage collaboration and productivity-enhancing technologies.

STAYING COMPETITIVE

To keep up with the fast pace of business and escalating customer demands, organizations must have the agility to respond quickly to change.

We are a “customer-led” consulting organization that believes in providing our customers with creative customized solutions that are independent, unbiased recommendations.

Turn to the experts in integrating your technology, business goals and technical requirements.

Stay Competitive...

WHY ELEGANT MICROWEB

Our Vision

Elegant MicroWeb is working towards creating world-class intellectual property through products, processes and delivery models to give our customers the best value of technology, regardless of technical, functional, geographic and cultural barriers. We are committed to grooming relationship and grow through synergy. We practice best ethical values, and believe in commitment to quality, good corporate citizenship and best HR practices. At Elegant MicroWeb, we believe in improving good to better and march on towards excellence, visualizing an empowered future with technology.

Flexible Business Models

We follow flexible business models to meet specific requirements of each customer with an intense understanding of popularly used business models. We are capable of onsite, offshore and hybrid delivery models that prove to be highly beneficial to our customers.

Technical Competency

Cross platform technical competence that spans from designing simple interactive database solutions to complex network management systems based on most protocols, platforms, frameworks and devices.

IP Protection & Security

We understand the importance of intellectual property rights for you and have implemented stringent security policy. Accordingly, we respect and abide by the laws related to IPR, non-disclosure agreements, and copyright act.

People

We are focused on recruiting, grooming and retaining the most talented IT specialists, providing various individual and team training programs to deliver robust technical solutions with best service experience.

Experience

A team of highly capable technical and functional experts with diligent production of an impressive collection of well tested, proven, and globally accepted products. With experience of more than one decade of working with overseas customers, we have overcome all geographical and cultural barriers and implemented effective delivery models and process to deliver best value. Not just that, we've a flawless track record of delivering value of technology to our customers too.

Processes / Quality Systems

By concentrating on several selected IT areas, over the course of time we have built and polished our business and development processes thereby insuring quality product development and support backed by ISO 9001:2000 certified QMS. We understand the importance of intellectual property rights for you and have implemented our security policy. Accordingly, we respect and abide by the laws related to IPR, non-disclosure agreements, and copyright act.

Creative Environment

We strongly encourage our team members to think out-of-box and be proactive in applying individual or group experience to unique problems of our customers.

Customer Dedication

Responsibility, transparency, attentiveness and strong alliance make us very easy to deal with. We constantly broaden our knowledge and adapt to suit customer convenience and methodologies.

India Advantage

Based in India, we are in a favorable position of using cost-effective resources that offer the desired quality and scalability to dramatically bring down development costs while maintaining excellence for your growth.
