## Website Development, Hosting, Maintenance & Support for India Country Coordinating Mechanism.

### The Client

The India Country Coordinating Mechanism (India-CCM) was established by the Ministry of Health and Family Welfare and other relevant and interested stakeholders. Its purpose was to access Global Fund grant monies, and to ensure those funds were well-coordinated within the national response, as well as to provide national oversight and ownership of grant implementation. The purpose of the India-CCM is to strengthen measures to fight HIV/AIDS, TB and malaria in India through multi-sectoral coordination and effective and inclusive dialogue among appropriate stakeholders, including key affected populations and persons living with these diseases.

### The Objective

The objective of this project was to enhance and strengthen the Client online presence with a public website that is user-friendly and will allow for easy content publication to keep the site fresh and up-to-date. The primary purpose of the website is to publish information to keep the public informed about the organization and its activities and provide information about the grant, meeting minutes from board meeting, field reports, guidelines, reports and more.

### The Solution

The Elegant MicroWeb team collaborated with the Client team to define requirements and design, develop and implement solutions for a seamless rollout of new features and functionality.

The Elegant MicroWeb team approach included:

- Coordination with stakeholders to develop requirements and release planning
- Involvement with the Client team and key product team members to plan for testing
- Collaboration with Client team to plan for internal and production releases
- Processes and planning to ensure network, hardware, and technology compatibility and performance
- Definition and implementation of quality and support processes to accommodate upgrades and on-going maintenance
- Development and deployment of training programs for users

## Website Development, Hosting, Maintenance & Support for India Country Coordinating Mechanism.

The scope of this project included:

- **Public Website Development**
  - Information about the organization, team structure and other related information
  - Information on the grant received from the Global Fund
  - Grants with their scorecards for each disease supported by ICCM
  - Media Gallery
  - Event Calendar
  - Country Proposals Management
  - Job openings Management
  - Publications
  - Reports
- **Hosting and Domain Management**
- **Support & Maintenance**

### The Technology

- Front-end: WordPress
- Database: MySQL

### Elegant MicroWeb Role

The Elegant MicroWeb team provided support, knowledge and skills in the following areas:

- Detailed requirements
- Roadmap planning
- Technical feasibility
- Graphics, layout and user experience design
- Architecture, development, maintenance and support
- Continuous enhancement, upgrade and roll out
- Training and support to business users

### Conclusion

The Elegant MicroWeb team collaborated with the Client to conceive, design, develop, configure, implement, deploy and train solutions in support of Client objectives. The project resulted in a redesign and reimagining of the India-CCM website to include responsive layouts and user-friendly menus and navigation. The project was completed on time and on budget and enhanced Client operations with a solution that met expectations and supported the technology set as defined by Client requirements. The solution is easy to use, easy to manage and maintain and is completely scalable for future upgrades.
